Sample Introduction for Toni Crowe:

Today's guest is an award-winning executive with over 30 years of experience. She has climbed the corporate ladder across multiple sectors, including high tech, consumer and nuclear sensors, aerospace, film production, and glass manufacturing.

To say that she had a unique and difficult start in life is a major understatement. At just 18 years old, she fell blindly in love with a pimp and ran away with him. Tragically, most women who are targeted in this way never escape. She not only escaped but achieved the elusive American Dream.

Toni wrote about her life experience in her six book My \$7 Journey Series. On her journey from a lady of the night to the lady in the boardroom, she became certified as Professional Engineer, a Six Sigma Black Belt, a Certified Professional Manager, trained in Japan and was inducted into the New York YWCA Academy of Women Leaders. Currently, she is the President and CEO of her own company, Just One. The company is dedicated to stopping just one person from making the mistakes she made.
